

New Product Release

The ARS product line is being replaced. We do have a few items still in stock that will be delivered for the next bit but the ARS has been replaced with NARS. The NARS Interface Adaptors will work with both SATELLINE products and SATELNode and SATELCode products. Instead of ARS-1F, for example, it is now known as the NARS-1F.

ARS's have now officially been replaced by NARS's. Please have a look at the enclosed diagram, this is just one example. If you have any questions or comments do not hesitate to contact us.
